Why PRISM is Awesome?

Programs

PRISM provides in-depth functionality to track your Programs to support the population at high risk. You will be able to gather and track Program Information, Program Budgets and Dates; access Dashboard with summary view of the underlying Projects with Funding information.

Patient Management

Manage patients and their associated Personal Data, Demographics, Vaccine and Immunization Records, Household Members etc. with very minimal customization and configuration.

Vaccine Management

PHASE provides out of the box functionality to manage waiting list of eligible applicants and managing the allocation of vouchers based on available funding and program guidelines.

Provider Management

PRISM provides out of the box functionality to manage various providers, such as Healthcare Providers, Hospitals, Care Providers etc., which includes the related Facilities, Contacts, Required Documents, Automated Approval Process, Activities and Tasks, Vaccine Orders, Inventory and Utilization, Reports and Dashboards by Providers.

External Portal

PRISM provides an External Portal for the Patients and Parents/Guardians, Care Providers, Public Health to be able to view the information and use for various activities such as enrollments into schools and day care, stay updated with the vaccinations, which vaccinations are needed for the patients, develop programs to increase the preventions etc.

Reports & Dashboards

PRISM comes with several out of the box reports and dashboards for Patient Information and Statistics, Vaccine Inventory and Utilization, Data Quality Reports, Program Based Reports, Budget Tracking Summary Reports etc., however we can customize or create any reports or dashboards per your needs at Funding Program or Opportunity level.

Government

Federal
State
County
City/Township/Municipality

Nonprofit

Private
Non-profit
Charity Trust
Homeless Service Provider

Healthcare

Hospital
Care Provider

PRISM Resolution

PRISM addresses and resolves the following pain points for immunization management from organizational perspective.

- Heavy Reliance on Manual Processes
- Redundant submission & review of information
- Inefficient process for tracking required documentation

- No standard risk analysis and audit management
- Scattered data which is not available for proper data analytics
- Lack of program and project integrity

- Lack of clarity and frequent changes in requirements
- Continuous changes in procedures and policies and no centralized documentation of the changes

- Required forms change frequently, however, timely updates not always available
- Various forms related to their programs and projects.
